Summary

Creative and detail-oriented Frontend Developer with over 3 years of experience building responsive, user-focused web applications. Skilled in transforming UI/UX designs into functional and optimized interfaces using modern frameworks. Experienced in managing complete development cycles, cross-functional collaboration, and performance tuning. Strong understanding of accessibility, SEO, and responsive design best practices. Proven ability to contribute to team success in fast-paced, agile environments.

Experience

THABT Gulf Digital Solution - June 2025 – Present
Senior Frontend Developer, Doha, Qatar

- Design and develop dynamic, responsive web interfaces using modern frameworks, including, Bootstrap, Tailwind CSS, and Material Ul, to deliver seamless user experiences
- Work closely with UX/UI teams to convert high-fidelity prototypes into fully functional front-end components, ensuring pixel-perfect implementation across devices
- Enhance application performance by reducing page load times, and ensuring efficient code structure for better scalability and maintenance
- Create modular, reusable components to support rapid development and consistency across multiple application modules
- Perform continuous debugging, troubleshooting, and performance testing to detect and resolve issues promptly, contributing to overall system stability
- Manage code using FileZilla for efficient collaboration
- Work on the different design in Laravel and PHP frameworks.

Volpea Solutions - March 2024 – May 2025
Frontend & Angular Developer, Islamabad, Pakistan

- Enhance application performance by optimizing rendering logic, reducing page load times, and ensuring efficient code structure for better scalability and maintenance
- Create modular, reusable components to support rapid development and consistency across multiple application modules
- Perform continuous debugging, troubleshooting, and performance testing to detect and resolve issues promptly, contributing to overall system stability
- Manage code repositories using Git and GitHub, and ensure team-wide version control practices are followed for efficient collaboration
- Support deployment and CI/CD processes using Microsoft Azure, integrating front-end builds, and ensuring smooth delivery of updates and releases
- Participate in daily stand-ups and sprint planning with cross-functional teams to align development goals, track progress, and contribute to agile project execution

Friends IT Solutions - Jan 2022 – Feb 2024
Frontend & UI Developer, Rawalpindi, Pakistan

- Developed responsive and user-friendly web interfaces using HTML5, CSS3, JavaScript, jQuery,
- PHP, and Laravel
- Enhanced user journeys by implementing thoughtful design improvements that aligned with usability best practices

- Applied on-page SEO strategies to improve site visibility, structure content, and support search engine indexing
- Identified and resolved front-end bugs and layout inconsistencies to improve overall site stability and user experience
- Played a key role in transitioning project management tools from JIRA to ClickUp, streamlining task tracking and team collaboration
- Participated in client meetings and feedback sessions to align product updates with user expectations and business goals
- Strong understanding of SharePoint Framework (SPFx), HTML, CSS, and Bootstrap for custom

Education

Bachelor of Science in Computer Science - Oct 2017 – July 2021
Hamdard University, Islamabad, Pakistan - **CGPA:** 3.46 / 4.0

Projects

1. **Portugal MLS**
- Mobile-first redesign, improving conversions by 35% and reducing bounce rate by 42%.
- Built with Bootstrap, Material UI, bilingual interface, and interactive map features.
2. **Ship Afrika**
- Developed a user-friendly layout with JavaScript and jQuery.
- Built a PHP-based asset management tool for 30+ users.
3. **Cox & Cox**
- Created bilingual UI, improved accessibility, and reduced bounce rate by 30%.
- Conducted user testing with InVision/UserTesting.com
4. **ZP Training**
- Designed brand-consistent layouts using Bootstrap 5, Laravel, and JavaScript.
5. **IDF School of Diabetes**
- Built a multilingual, responsive platform with consistent UI/UX and accessibility focus.

Technical Skills
